

## HOLLAND BOARD OF PUBLIC WORKS

### Residential Energy Efficiency Programs

Holland Board of Public Works offers many opportunities for our electric customers to save money on their utility bill. Scan the QR code to go directly to [www.hollandbpw.com](http://www.hollandbpw.com) to learn more about all of our residential programs.

#### Lower My Bill

If you do not live in the City of Holland and don't have access to our Home Energy 101 Training, you can use the Holland BPW Lower My Bill program to schedule a free 60-90 minute assessment by a certified technician who will give you a list of recommendations on ways to lower your electric bill. Call 616-393-5610.

#### Free ENERGY STAR LED light bulbs

You can go to the Green Projects Group website to fill out a short form which takes less than five minutes. From there, you can select up to 36 LED light bulbs and a programmable thermostat. Everything will be shipped to your door for free. Scan the QR code to go directly to the Green Projects Group website.

#### Rebates

Holland BPW offers a lot of rebates for ENERGY STAR<sup>®</sup> appliances up to \$250. We also offer rebates for electrification which includes electric lawn tools, heat pumps, and panel upgrades. Check our website (scan in the QR code at the top right) to access the rebate application form and for more specific information about our rebates.

#### Appliance Recycling

The Holland BPW will pay you up to \$50 to get rid of working dehumidifiers, mini-fridges, window air conditioners, freezers, and refrigerators. Call Mike's Junk Hauling at 616-405-9889 to schedule a pick up. You can recycle up to two large items and two small items each year.

#### Elective Vehicle Chargers

Holland BPW offers a rebate of up to \$325 for a residential electric vehicle charger. The rebate application is on our website. Scan in the QR code at the top right to go to our website.

#### Elective Renewable Energy Rate

If you want 100% of the electricity to your home or business to be sourced from renewables, you can pay just one extra cent per kilowatt-hour to get renewable power. For the average home in Holland, this amounts to an extra \$5 per month. Go to our website (scan in the QR code at the top right) to access the application.
